DRINKS AND LIQUORS

At our Flexographic Printing Center, we offer packaging solutions that combine quality, security and customization to fit your business needs: Adhesive Labels, Security Seals, Shrink Sleeves, and more.

Each solution is designed to enhance the presentation, functionality and security of your products, helping your brand stand out.

SHRINK SLEEVES

Shrink sleeves transform plastic, glass or metal containers into powerful visual communication tools. With full 360-degree coverage, they wrap around every corner of the package, turning it into a brand experience that attracts, impacts and sells from the first contact.

BENEFITS:

- Ease of application
- Space for your brand
- Custom Design
- Resistance and durability
- Adaptability
- Ideal for promotions
- Integrated security
- UV Protection

ADHESIVE LABELS

Adhesive labels are essential for any type of product. Therefore, we have dedicated ourselves to developing a wide variety of materials, adhesives, backings, and finishes, among others, to meet the requirements of image, functionality, and safety.

¡Lets talk about your project!

We would love to accompany you and offer advice on the custom design of your packaging or special projects, always tailored to your unique needs and requirements.
